CHAMBER OF COMMERCE

“Supporting Business and Building a Better Community”

As a leader for business and economic development, the Fallbrook Chamber of Commerce provides a broad array of services to members, including consultations on business matters, assistance with new business grand openings, educational workshops and seminars, and multi-faceted networking opportunities. The Chamber also provides members with ongoing information about community-related alerts, activities and opportunities.

The Chamber also acts as the local center for tourist information. It is the official information center of our unincorporated community. County and other government officials look to the Chamber for both facts and local perspectives relating to many pending decisions affecting our town and area.

The Chamber also serves as a communications hub for business, residents and visitors. Every other year our organization publishes an area map. A member business directory is also provided in partnership with the Village News Sourcebook on an annual basis.

Dollars spent in Fallbrook are dollars reinvested in the entire community. Money circulated in the community not only contributes to businesses, but provides employment and support for local schools, non-profit groups and other charities. A strong, diverse business base with the community provides additional economic opportunities for all of us.
